

BEGIN BRIGHT CUTTING AND PRE-WRITING PRACTICE

INSTRUCTIONS

- Cut the template into strips to make it easier for little fingers
- Using children's safety scissors, show your child how to hold the scissors correctly
- Ask them to cut along the dotted lines to reach the star
- Practice makes perfect! Encourage their efforts.
- They can also practice snipping other things like straws, ribbon and cardboard, this will help to strengthen the fine motor muscles in their hands and help them to control the scissors.
- You can also use this sheet for pre-writing practice by asking your child to trace along the dotted lines. You can laminate the sheet and use a texta, then wipe clean to reuse.

HAVE FUN!
